

## The Wildflower Preservation and Propagation Committee Garden Mapping Project Questionnaire

### Add your garden, large or small, to the WPPC Garden Mapping Project map!

The Garden Mapping Project is an important tool to reveal locations, pathways and connectedness of properties with native plantings. It also identifies where there are gaps so that we can try to address them and create a broader habitat corridor. This budding Chicagoland region-wide initiative could serve as an example and inspiration for the rest of the country to help create a 'Backyard National Park'.

#### Tell us about your backyard native garden:

Name: \_\_\_\_\_

Address: \_\_\_\_\_  
\_\_\_\_\_

- My property is a: (check appropriate box/es)
  - Conservancy property       Reconstruction       Restoration
  - Other (please describe) \_\_\_\_\_
  - established through the Natural Garden in Your Yard (NGYY) mentoring program of The WPPC  
(please specify the year \_\_\_\_\_ )
- Currently, approximately \_\_\_\_\_ (square feet) OR \_\_\_\_\_ (acres) have native plantings (trees, shrubs, forbs, grasses, etc.) on my property.
- Your garden will be listed on the WPPC Garden Mapping Project map, and included as a WPPC site on the Chicago Area Living Corridor Alliance map. Please select one option below:
  - I would be willing to have my property's address posted on a map of native plant gardens.OR
  - I would rather the general location of my property posted as being near the intersection of \_\_\_\_\_ and \_\_\_\_\_.

Signature \_\_\_\_\_ Date \_\_\_\_\_

If you have a photo of your property (showing the native plantings) that you would like to include, please email it along with your completed form to Carol Rice at [goforsix@aol.com](mailto:goforsix@aol.com).
